Career Objective

As being a learner, I always keeps myself busy and perform various activities, whether it is technical, sports or even clubs and societies of college. Being a multitasker always helps me to increase my efficiency in work. Currently I'm seeking for **SDE INTERN** , As being a good leet coder, I'm good at problem solving skills and made various **FRONTEND PROJECTS.**
All my sports, clubs and society activities makes me to improve my communication skills along with leadership skills too.
4 Years from now, i see myself being a lead SDE of a company, working for company with full of dedication and determination and taking my company to much higher level than it was used to be.

Education
